## Product Specification

**Product Name:** 3M™ Respirator 4000+ Series.

**Product Type:** Valved filtering half masks to protect against gases and particles.

**Models:** 4251+ (standard industrial product) and version 06941+ (automotive aftercare product)  
4255+ (standard industrial product) and version 06942+ (automotive aftercare product)  
4277+ (standard industrial product)  
4279+ (standard industrial product).

**Technical Specification:** Harmonized European Standard: EN 405:2001+A1:2009.

**Product Description:** These respirators are designed to protect against specific gases, vapours and particles. Each model consists of a moulded face piece, which acts as the face seal and also to support the filters. All models are re-usable devices (denoted by the classification symbol R) and have the Dolomite Clogging option (denoted by the classification symbol D).

Each of the above respirators can be used with the 3M™ Cool Flow™ Fan 1040 (or variant 10691), a battery-operated fan designed to provide a cooling system for the end users.

| EN 405 Classifications: | Model  | Classification |
|-------------------------|--------|----------------|
|                         | 4251+  | FFA1P2 R D     |
|                         | 06941+ | FFA1P2 R D     |
|                         | 4255+  | FFA2P3 R D     |
|                         | 06942+ | FFA2P3 R D     |
|                         | 4277+  | FFABE1P3 R D   |
|                         | 4279+  | FFABEK1P3 R D. |

## Product Assessment

The product assessments were based on BS EN 405:2001+A1:2009, the English language version of EN 405:2001+A1:2009, respiratory protective devices – valved filtering half masks to protect against gases or gases and particles.

## Packaged variants

In addition to the products referenced on this Certificate the standard industrial products may also be sold as market specific packaged variants. Such variants will be differentiated and the Technical File(s) will be updated with the appropriate information.

## Kits and packouts

The products referenced on this Certificate may also be combined with other 3M products into a kit or packout. There will be no change to the product but the User Information may vary, in such instances the applicable Technical File(s) will be updated with the appropriate information.

## Certificate Administration Details

Technical File Reference: TF0553

## Certificate Amendment Record:

| Issue date    | Comments  | BSI Review No.   |
|---------------|---|------------------|
| April 2019    | First issue under PPE Regulation (EU) 2016/425.               | 0086:19:9704735  |
| November 2019 | Addition of 3M™ Cool Flow™ Fan 1040/10691.                    | 2797:19:3086482  |
| November 2023 | 5-year certificate renewal under PPE Regulation (EU) 2016/425 | 2797:23:30032762 |

## Certificate validity

The Certificate holder is responsible for ensuring that the Notified Body is advised of changes to any aspect of the overall process utilised in the manufacture of the product, failure to do so could invalidate the Certificate in respect of product manufactured following the introduction of such changes.

The validity of the Certificate for the products is also dependent on the maintenance of the EU Conformity to Type Based on Quality Assurance of the Production Process, Annex VIII (Module D), as referenced on BSI issued Certificate CE 595701.
