Product Specification

Product Name: 3M[™] Respirator 4000+ Series.

Product Type: Valved filtering half masks to protect against gases and particles.

Models: 4251+ (standard industrial product) and version

06941+ (automotive aftercare product)

4255+ (standard industrial product) and version

06942+ (automotive aftercare product) 4277+ (standard industrial product) 4279+ (standard industrial product).

Technical Specification: Designated Standard: EN 405:2001+A1:2009.

Product Description: These respirators are designed to protect against specific gases, vapours and particles.

Each model consists of a moulded face piece, which acts as the face seal and also to support the filters. All models are re-usable devices (denoted by the classification symbol R) and have the Dolomite Clogging option (denoted by the classification symbol

D).

Each of the above respirators can be used with the 3M[™] Cool Flow[™] Fan 1040 (or variant 10691), a battery-operated fan designed to provide a cooling system for the end

users.

EN 405 Classifications: Model	Classification
