# RESPIRATOR FOR YOUR SAFETY AND HEALTH

## CEO'S GREETING

EverGreen CEO,  
LEE, Seunghwan

We, EverGreen, are a manufacturer of Disposable Respirators in KOREA. We started manufacturing Disposable Respirators very first in KOREA. Since 1996, we always have been introducing new products with innovated process, upgraded function and better comfort.

**CleanTop** is our brand which meets your needs and protects your safety and health.

EverGreen thinks about not only the products but also user's safety and health. Everyone in EverGreen has a sense of duty to make products which protect users from danger.

As we have been doing so, EverGreen will take the competitive advantage with thinking from user's view and innovation.

Thank You.

## HISTORY

- 1996** • Foundation of EverGreen Co., Ltd.
- 1997** • Introduced 4 kinds of Disposable Respirators as the first made-in-Korea disposable respirators by Korean technology
- 1998** • Registered trademark of "CleanTop"
- 2000** • Certified P1 grade (KCs) first in Korean makers
- 2003** • Installed a testing device (TSI-8130) first among the Korean manufacturers of Disposable Respirators
- 2004** • Made 2 kinds of Earplugs certified KCs for the first in Korean makers
- 2005** • Certified P3 grade (KCs) first in Korean makers
- 2006** • Awarded Grand Prize of First Enterprise operated by Reliable Business & Brand
- 2007** • ISO certified, Established the factory in Gaesung Industrial Complex
- 2008** • Acquired CE (Europe)
- 2009** • Fine Dust mask, KF certified
- 2010** • Awarded certificate from the Minister of Labor in Korea
- 2011** • Launched the new 25 kinds of respirators
- 2012** • Automatization facilities, Technical cooperation with Shigematsu
- 2013** • Acquired NIOSH (the U.S.)
- 2014** • Acquired AS (Australia)
- 2015** • First Acquired the certificate of KF99
- 2016** • Acquired LA (China)
- 2017** • Automatization facilities for Healthcare mask, Patent of masks attached with cotton
- 2018** • Acquired Japanese Certificates, Started exporting respirators to Japan
- 2019** • Launched reusable respirator (KTW series) and PAPR (KAP series)

## FOR THE FINAL GOAL

EverGreen has been the pioneer. Since we first manufacture Particulate Disposable Respirator in KOREA.

EverGreen always takes 'the first'

**WE ARE STILL GOING TO THE GOAL.  
FEEL THE INNOVATION.**

## EverGreen THINKS ONCE MORE

- High Efficiency
- Easy to Breathe
- Outstanding Function
- Comfortable Fit
- Endless Innovation
- Good Design

## Outstanding Features

# Cup-Style Disposable Respirator

### Development of the new mask

- Higher Performance, No fuzzy, Lightweight
- “2-Step process” to protect the filter
- Higher efficiency, Lower resistance, Longer usage time
- Stable form maintains the chamber space

### Exhalation Valve for safety and comfort

- Integral Design, Fast release of CO<sub>2</sub>
- One-body design of valve and respirator, no split or leakage
- Better responsiveness with Silicon material
- Lightness for long work
- Transparent material to check the action of valve
- Practical size for proper filter area and wider field of vision

### Adjustable bands

- Easy to adjust with Headband clip
- Easily adjustable by pulling the head bands
- Always adjustable before or after wearing the respirator
- Easy to wear and take off by using the hook

### Face Seal with various functions

- Sweat adsorption, Anti-bacteria, Odor prevention
- Soft touch, Stretchy to a face
- Enhance airtightness around a face
- Anti-bacteria, Odor prevention
- Sweat adsorption and release
- Block particulates from the outside

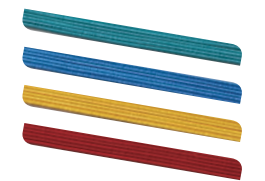

### Nose clip and sponge

- Airtightness and block the fog to the eyewear
- Reduce heat and moisture build-up on glasses or protective eyewear
- Comfort fit even when wearing eyewear
- Harmless aluminum material, higher airtightness

### Colorful bands

- Elasticity, Soft touch, Anti-allergy
- High-quality head band
- Comfort to use with soft touch and elasticity
- Anti-allergy

### Beautiful, Colorful Respirators

- Respirators for fashion
- Color classification according to purpose
- Red – FFP3, Yellow – FFP2, Green – FFP1, Blue - Carbon
- Fashion for all components
- Respirators as Fashionable items everyone wants to have

### How to Wear

Stapled Bands

- 01 Cup the respirator in your hand with the nose piece at your fingertips, allowing for the headbands to hang freely below your hand.
- 02 Position the respirator under your chin with the nosepiece up. Pull the top strap over your head until it rests on the crown of your head, above your ears.
- 03 Pull the bottom strap over your head and place it on the back of your neck, so it rests just below your ears.
- 04 Using both hands, starting at the top of the nose clip, mold the metal nose clip around your nose to achieve a secure seal.

Band Hook

- 01 Hold the hook with a hand and hold the other headband with the other hand. Using the hook, tie the two headbands.
- 02 Adjust the length of headbands by pulling the strips of the headband clip on the respirator.

2-Step process

## Outstanding Features

# Inner-Frame Disposable Respirator

### Comfortable Fit, Soft Inner-Frame

■ Design for Human, Foldable Structure ■

- Enhance airtightness around user's face
- Reduce heat and moisture build-up on glasses or protective eyewear
- Foldable with form resilience
- Structure for air flow and chamber space

### Face Seal with high function

■ Sweat adsorption, Anti-bacteria, Odor prevention ■

- Soft touch, Stretchy to a face
- Enhance airtightness around a face
- Anti-bacteria, Odor prevention
- Sweat adsorption and release
- Block particulate of the outside

### Patented Inner-Frame Respirator

■ No.1 Respirator Maker in Korea ■

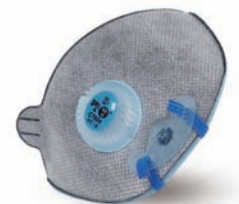

- Patent of manufacturing Inner-Frame respirators
- Only one company with the patent in Korea
- Best experience by the largest production and sales in Korea

### Respirators with a Knob

■ More convenience for Users ■

- Patented, Innovative Design from users' side of view
- Easy conversation or taking off by holding the knob
- Minimize the reach of contaminated hand on the respirator
- Extend usage time by helping hygienic use

### Exhalation Valve for safety and comfort

■ Integral Design, Fast release of CO<sub>2</sub> ■

- One-body design of valve and respirator, no split or leakage
- Better responsiveness with Silicon material
- Lightness for long work
- Transparent material to check the action of valve
- Practical size for proper filter area and wider field of vision

### Adjustable bands

■ Easy to adjust with Headband clip ■

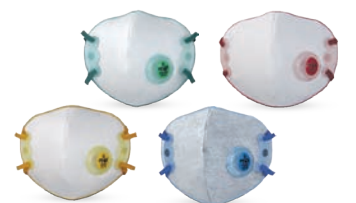

- Easily adjustable by pulling the head bands
- Always adjustable before or after wearing the respirator
- Easy to wear and take off using the hook
